Кафедра ИУ5

Курс «Основы информатики»

Отчет по рубежному контролю №2

Вариант 10

Выполнил:

студент группы ИУ5-33Б:

Номоконов В.А.

Подпись и дата:

Проверил:

преподаватель каф. _

Гапанюк Ю.Е.

Подпись и дата:

Москва, 2024 г.

Постановка задачи

Рубежный контроль представляет собой разработку тестов на языке Python.

- 1) Проведите рефакторинг текста программы рубежного контроля №1 таким образом, чтобы он был пригоден для модульного тестирования.
- 2) Для текста программы рубежного контроля №1 создайте модульные тесты с применением TDD - фреймворка (3 теста).

Текст программы

`\files_for_rk2\refactoringCode.py`

```
